## **Report of Independent Auditors**

The Stockholders and Board of Directors  
Denali Bancorporation, Inc., and Subsidiary

### **Report on the Audit of the Financial Statements**

#### ***Opinion***

We have audited the consolidated financial statements of Denali Bancorporation, Inc., and Subsidiary (the Company) which comprise the consolidated balance sheets as of December 31, 2025 and 2024, and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2025 and 2024, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are issued.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

# **Denali Bancorporation, Inc. and Subsidiary**

## **Notes to Consolidated Financial Statements**

---

### **Note 1 – Organization and Summary of Significant Accounting Policies**

#### **Organization**

Denali Bancorporation, Inc. (the Company) is a bank holding company whose principal activity is the ownership and operation of its wholly-owned subsidiary, Denali State Bank (the Bank). The Bank generates commercial, consumer, construction and mortgage loans, and receives deposits from customers located primarily in Interior Alaska. The Bank is chartered and regulated by the State of Alaska and is insured and subject to regulation by the Federal Deposit Insurance Corporation.

#### **Basis of presentation**

The accompanying consolidated financial statements of Denali Bancorporation, Inc. include the accounts of the Company and its wholly-owned subsidiary, Denali State Bank. Significant intercompany transactions and balances have been eliminated in the preparation of the consolidated financial statements.

#### **Segment information**

The Bank has one reportable segment: banking operations. Loans, securities, deposits, and non-interest income provide the revenues of the banking operation. Loan products offered to customers generate a majority of the Bank's interest and fee income. Additionally, deposit products offered to customers generate fees and service charge income. Interest income earned on securities, and net gains on the sales of loans to third parties are other sources of revenue. Interest expense, provisions for credit losses, salaries and employee benefits, and data processing provide the significant expenses in banking operations. These significant expenses are the same as those disclosed in the Bank's Consolidated Statements of Income and Consolidated Statements of Cash Flows. Noncash items such as depreciation and amortization are also disclosed in the Bank's Consolidated Statements of Income and Consolidated Statements of Cash Flows.

The Bank's chief operating decision maker (CODM) is the Chief Executive Officer. The CODM is provided with consolidated balance sheets, income statements, and net interest margin analyses in order to evaluate revenue streams, significant expenses, and budget-to-actual results in assessing the Company's segment and determining the allocation of resources. Additionally, the CODM reviews performance of various components of banking operations, such as loan portfolio types, funding sources, and overhead, to assess product pricing and significant expenses and to evaluate return on assets. The CODM use consolidated net income to benchmark the Bank against its competitors. The benchmarking analysis coupled with monitoring budget-to-actual results are used in assessing performance and in establishing compensation. The accounting policies of the banking operations are the same as those described in Note 1 – Organization and Summary of Significant Accounting Policies. All operations are domestic.

#### **Financial statement presentation and use of estimates**

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles and reporting practices applicable to the banking industry. The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amounts of income and expenses during the reporting period. Actual results could differ significantly from those estimates.

## **Denali Bancorporation, Inc. and Subsidiary**

### **Notes to Consolidated Financial Statements**

---

Significant estimates are necessary in determining the recorded value of the allowance for credit losses, fair values and impairment of investment securities, fair value of impaired loans, net realizable value of other real estate owned, and fair values of financial instruments. Management believes the assumptions used in arriving at these estimates are appropriate.

#### **Comprehensive income**

Accounting principles generally require that recognized revenue, expenses, gains, and losses be included in net income. Certain changes in assets and liabilities, such as unrealized gains and losses on available-for-sale securities, are reported as a separate component of stockholders' equity and within the consolidated statements of comprehensive income.

#### **Cash and cash equivalents**

Cash equivalents are generally short-term investments with a maturity of three months or less. Cash and cash equivalents include cash on hand, amounts due from banks, and federal funds sold.

The Bank maintains balances in correspondent bank accounts which, at times, may exceed federally insured limits. Management believes that its risk of loss associated with such balances is minimal due to the financial strength of correspondent banks. The Bank has not experienced any losses in such accounts.

#### **Investment securities**

Debt securities that are held principally for resale in the near term are classified as "trading" and recorded at fair value with changes in fair value included in earnings. Debt securities that management has the positive intent and ability to hold to maturity are classified as "held-to-maturity" and recorded at amortized cost. Securities are classified as "available-for-sale" if the instrument may be sold in response to such factors as: (1) changes in market interest rates and related changes in prepayment risk, (2) needs for liquidity, (3) changes in the availability of and the yield on alternative instruments, and (4) changes in funding sources and terms. Gains or losses on the sale of available-for-sale securities are determined using the specific-identification method. Unrealized holding gains and losses, net of tax, on available-for-sale securities are carried as accumulated other comprehensive income or loss within stockholders' equity until realized. Fair values for these investment securities are generally based on quoted market prices for the same or similar instruments. Premiums and discounts for all investment securities are recognized in interest income using the effective interest method over the period to maturity for the accretion of discounts and until the most recent call date for securities purchased at a premium.

Securities transferred from held-to-maturity to available-for-sale are transferred at amortized cost and subsequently adjusted to fair value at the date of transfer. Fair value adjustments are recognized in other comprehensive income (loss) at the time of the transfer and, thereafter, among unrealized gains or losses recognized for all securities classified as available-for-sale.

## **Denali Bancorporation, Inc. and Subsidiary**

### **Notes to Consolidated Financial Statements**

---

#### **Allowance for Credit Losses – Investment Securities**

For available for sale securities in an unrealized loss position, the Bank first assesses whether it intends to sell, or it is more likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. For available for sale securities not meeting the aforementioned criteria, the Bank evaluates whether the decline in fair value below the amortized cost basis (impairment) is due to credit-related factors or noncredit-related factors. Any impairment that is not credit-related is recognized in other comprehensive income, net of applicable taxes. Credit-related impairment is measured as the amount by which the present value of expected future cash flows is below the security's amortized cost. Credit-related losses are recognized as a charge to earnings and an increase to the allowance for credit losses, limited to the amount by which amortized cost basis exceeds fair value.

The allowance for credit losses on held to maturity securities is estimated on a collective basis by major security type. The estimate of expected credit losses considers historical credit loss information that is adjusted for current conditions and reasonable and supportable forecasts.

Changes in the allowance for credit losses for available for sale and held to maturity securities are recorded as a provision for (or reversal of) credit loss expense. Losses are charged against the allowance when management believes the collectability of a security is confirmed or when either of the criteria regarding intent or requirement to sell is met.

#### **Federal Home Loan Bank (FHLB) of Des Moines stock**

At December 31, 2025 and 2024, the Bank held FHLB stock with a par value of \$624,400 and \$517,700 respectively. As a member of the FHLB system, the Bank is required to maintain a minimum investment level in FHLB stock, based on specific percentages of the Bank's outstanding mortgages, total assets, or FHLB advances. This security is reported at par value, which represents the Bank's cost. Stock redemptions are made at the discretion of the FHLB.

Stock in the FHLB of Des Moines is classified as restricted stock and is periodically evaluated for impairment. The determination as to whether the investment is impaired is based on the Bank's assessment of the ultimate recoverability of par value rather than by recognizing temporary declines in value. The determination of whether a decline affects the ultimate recoverability is influenced by criteria such as: (1) the significance of the decline in the net assets of the FHLB as compared to the capital stock of the FHLB and the length of time this situation has persisted, (2) commitments by the FHLB to make payments required by law or regulation and the level of such payments in relation to the operating performance of the FHLB, (3) the impact of the legislative and regulatory changes on institutions and, accordingly, on the customer base of the FHLB, and (4) the liquidity position of the FHLB. Management's review for impairment is based on ultimate recoverability of the Bank's cost basis in FHLB stock, and concluded that the FHLB stock investment was not impaired as of December 31, 2025.

## **Denali Bancorporation, Inc. and Subsidiary**

### **Notes to Consolidated Financial Statements**

---

#### **Loans**

Loans are stated at their unpaid principal balances, net of premiums and discounts on purchased loans, the allowance for credit losses and unamortized deferred fees and costs. All loan origination fees and related direct costs are deferred and amortized to interest income as an adjustment to yield over the respective maturities of the loans using the effective interest method. Interest on loans is accrued as earned on a daily basis based on principal amounts outstanding, except where reasonable doubt exists as to the collection of interest, in which case the accrual of interest is discontinued and the loan is placed on non-accrual status.

Accrual of interest is discontinued on impaired loans when management believes, after considering economic and business conditions, collection efforts and collateral position, that the borrower's financial condition is such that collection of interest is doubtful. When interest accrual is discontinued, all unpaid accrued interest is reversed. Interest income is subsequently recognized only to the extent cash payments are received and collection of the principal amount of the loan is reasonably assured.

The Bank accrues and recognizes interest income on loans under payment relief based on the original contractual interest rates. For consumer and commercial loans, when payments resume at the end of the relief period, the payments will generally be applied to accrued interest due until accrued interest is fully paid. For residential mortgages, borrowers will pay scheduled principal and interest payments according to the loan amortization schedule with deferred principal and interest repaid in a balloon payment at original scheduled maturity. Accrued interest balances are assessed for collectability on a periodic basis.

#### **Allowance for Credit Losses - Loans**

The allowance for credit losses on loans is a valuation allowance estimate that is deducted from the loans' amortized cost basis to present the net amount expected to be collected on the loans.

The Bank estimates the allowance for credit losses on loans based on the underlying loan's amortized cost basis, which is the amount of the loan at origination or acquisition, adjusted for collection of cash and charge-offs. The Bank has elected to exclude accrued interest from the measurement of the allowance for credit losses.

The allowance for credit losses is established through a provision for loan losses charged to expense as further described herein. Loans are charged against the allowance for credit losses when management believes that the collectability of principal is unlikely. Loans are charged off when management determines that all or some of the loan is uncollectible. Recoveries of previously charged-off loans are recorded as a credit or increase to the allowance for credit losses.

The Bank measures expected credit losses of loans on a collective (pool) basis when the loans share similar risk characteristics, or are grouped by program in the case of out-of-area lending programs in which the Bank participates. The Bank uses a weighted average remaining life method to estimate expected credit losses quantitatively for pooled loans, and historical loss rates for loan programs. The weighted average remaining life method uses exposure at default, along with the expected credit losses adjusted for prepayments to calculate the required allowance. The Bank utilizes peer historical loss data to estimate credit losses under the weighted average remaining life method.

## **Denali Bancorporation, Inc. and Subsidiary**

### **Notes to Consolidated Financial Statements**

---

In addition to the quantitative portion of the allowance for credit losses derived using the weighted average remaining life method, the Bank also considers the effects of qualitative factors in its calculation of expected losses in the loan portfolio. The qualitative factors are based on quantitative metrics, but also includes a high degree of subjectivity and changes in any of the metrics could have a significant impact on the calculation of the allowance for credit losses.

Loans that do not share similar risk characteristics with other loans or are part of loan programs are individually evaluated for expected credit losses. Loans are identified for individual evaluation during regular credit reviews of the portfolio. A loan is generally identified for individual evaluation when management determines that it is probable that not all amounts due on the loan, including accrued interest, will be collected. Expected credit losses on individually analyzed loans are measured using either the discounted cash flow method, enterprise value method, historical loss rates, or collateral method, or a combination of these methods, depending on the loan's characteristics and management's judgment. For collateral dependent loans, the current fair value of the collateral, less selling costs, is used to determine the recognition of an allowance for credit losses.

#### **Loans held-for-sale**

Mortgage loans originated and intended for sale in the secondary market are carried at the lower of aggregate cost or estimated market value. Net unrealized losses are recognized in a valuation allowance by charges to income. Mortgage loans are generally sold with servicing rights retained by the Bank.

#### **Transfers of financial assets**

Transfers of financial assets are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when: (1) the assets have been isolated from the Bank, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and (3) the Bank does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity or the ability to unilaterally cause the holder to return specific assets.

#### **Other real estate owned**

Other real estate owned (OREO), which represents property acquired through foreclosure or deeds in lieu of foreclosure, is initially measured and carried at fair value, establishing a new cost basis. At the time of foreclosure, any excess of the loan balance over the fair value of the property is charged to the allowance for credit losses and any excess estimated fair value over the loan's carrying value is recognized first as a recovery to the allowance for credit losses, to the extent that amounts have been charged-off for that loan.

Subsequently, any carrying value in excess of the loan's fair value is recognized in noninterest expense. Subsequent write-downs to net realizable value, if any, or any disposition gains or losses are included in noninterest expense.

#### **Premises, equipment, and leasehold improvements**

Premises, equipment, and leasehold improvements are stated at cost, less accumulated depreciation, and amortization. Depreciation and amortization are computed principally by the straight-line method over the estimated useful lives of the assets, or lease term in the case of leasehold improvements, which range from three to forty years.

## **Denali Bancorporation, Inc. and Subsidiary**

### **Notes to Consolidated Financial Statements**

---

#### **Leases**

The Bank enters into leases in the normal course of business, primarily related to bank branches. The Bank's leases have remaining terms ranging from one to five years, some of which include renewal options to extend the lease for up to five years. In addition, the Bank leases office space within the Bank's headquarters building to third-parties, the terms of which range from one to nine years.

Leases are classified as operating or finance leases at the lease commencement date. Lease expense for operating leases and short-term leases is recognized on a straight-line basis over the lease term. Right-of-use assets represent the Bank's right to use an underlying asset for the lease term and lease liabilities represent the Bank's obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term. The Bank uses its incremental borrowing rate at lease commencement to calculate the present value of lease payments when the rate implicit in a lease is not known. The Bank's incremental borrowing rate is based on the estimated rate of interest for collateralized borrowing at date of lease inception, adjusted for the lease term and other factors.

The Bank includes lease extension and termination options in the lease term if, after considering relevant economic factors, it is reasonably certain the Bank will exercise the option. In addition, the Bank has elected to account for any non-lease components in its real estate leases as part of the associated lease component. The Bank has also elected not to recognize leases with original lease terms of twelve months or less (short-term leases) on the Bank's balance sheet.

#### **Cash surrender value of bank-owned life insurance**

The Bank holds life insurance contracts covering certain executives and senior management. The cash surrender values of the contracts reflect the Bank's investment in the recorded assets, net of surrender charges. Holding gains and losses related to the contracts are included in earnings as gains or losses in the period in which they arise.

#### **Income taxes**

Income taxes are accounted for using an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement and tax basis of assets and liabilities at the applicable enacted tax rates. A valuation allowance is provided when it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company evaluates the realizability of its deferred tax assets by assessing its valuation allowance and by adjusting the amount of such allowance, if necessary.

The Company recognizes the tax benefit from uncertain tax positions only if it is more likely than not that the tax positions will be sustained on examination by the taxing authorities, based on the technical merits of the position. A tax benefit is measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. The Company does not anticipate that the amount of any unrecognized tax benefits will significantly increase or decrease in the next twelve months. The Company recognizes interest and penalties related to income tax matters in income tax expense.

The Company files income tax returns in the U.S. federal jurisdiction and the state of Alaska. The Company is no longer subject to U.S. or Alaska state examinations by tax authorities for years before 2022.

## **Denali Bancorporation, Inc. and Subsidiary**

### **Notes to Consolidated Financial Statements**

---

#### **Off-balance sheet financial instruments**

The Bank holds no derivative financial instruments. However, in the ordinary course of business, the Bank enters into off-balance sheet financial instruments consisting of commitments to extend credit and standby letters of credit. These financial instruments are recorded in the consolidated financial statements when they are funded or related fees are incurred or received.

The Bank records a liability for expected credit losses on off-balance sheet credit exposures, unless the commitments to extend credit are unconditionally cancelable, through a charge to the provision for credit loss expense.

#### **Revenue recognition**

The majority of the Bank's revenues come from interest income and other sources, including loans, and investments. The Bank recognizes income in accordance with the applicable accounting guidance for these revenue sources. The Bank's revenues that are within the scope of Accounting Standards Codification Topic 606 (ASC 606) include interchange income, service charges on deposits and gains and losses on other real estate owned, net.

*Interchange income and expenses* – Interchange income represent fees earned when a debit or credit card issued by the Bank is used. The Bank earns interchange fees from debit and credit cardholder transactions through the Visa payment network. Interchange fees from cardholder transactions represent a percentage of the underlying transaction value and are recognized daily, concurrently with the transaction processing services provided to the cardholder. The performance obligation is satisfied and the fees are earned when the cost of the transaction is charged to the cardholders' debit or credit card. Certain expenses and rebates directly associated with the debit and credit card interchange contracts are recorded on a net basis with the interchange income.

*Service charges on deposit accounts* – The Bank earns fees from its deposit customers for account maintenance, transaction-based activity and overdraft services. Account maintenance fees consist primarily of account fees and analyzed account fees charged on deposit accounts on a monthly basis. The performance obligation is satisfied and the fees are recognized on a monthly basis as the service period is completed. Transaction-based fees on deposit accounts are charged to deposit customers for specific services provided to the customer, such as non-sufficient funds fees, overdraft fees, and wire fees. The performance obligation is completed as the transaction occurs and the fees are recognized at the time each specific service is provided to the customer.

*Gain/loss on other real estate owned, net* – The Bank records a gain or loss from the sale of other real estate owned when control of the property transfers to the buyer, which generally occurs at the time of an executed deed of trust. When the Bank finances the sale of other real estate owned to the buyer, the Bank assesses whether the buyer is committed to perform their obligations under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the other real estate owned asset is derecognized and the gain or loss on sale is recorded upon the transfer of control of the property to the buyer. In determining the gain or loss on sale, The Bank adjusts the transaction price and related gain or loss on sale if a significant financing component is present.

Gains and losses on the sale of other real estate owned are included in noninterest expense and are generally recognized when the performance obligation is complete. This is typically at delivery of control over the property to the buyer at time of each real estate closing.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

#### **Advertising and promotional expenses**

The Bank expenses advertising and promotional costs as they are incurred. Advertising costs of \$434,698 and \$419,673 were charged to expense during the years ended December 31, 2025 and 2024, respectively.

#### **Earnings per share**

Basic earnings per common share is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding during the period, retroactively adjusted for stock dividends and splits. Diluted earnings per common share is computed similar to basic earnings per common share except that the denominator is increased, using the treasury stock method, to include the number of additional common shares that would have been outstanding if dilutive potential common shares had been issued.

Since the Company has no common stock equivalents outstanding as of December 31, 2025 and 2024, basic and diluted earnings per share are equal.

#### **Fair value measurements**

Fair value is defined as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The Bank determines fair value based upon quoted prices when available or through the use of alternative approaches, such as matrix or model pricing, when market quotes are not readily accessible or available. The valuation techniques used are based on observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Bank's market assumptions.

These two types of inputs create the following fair value hierarchy:

**Level 1** – Quoted prices in active markets for identical assets or liabilities.

**Level 2** – Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

**Level 3** – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Bank used the following methods and significant assumptions to estimate fair value for its assets measured and carried at fair value on a recurring and non-recurring basis in the financial statements:

*Investment securities, trading and available-for-sale* – For these securities, the Bank obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond's terms and conditions, among other things. When market quotes are not readily accessible or available, alternative approaches are utilized, such as matrix or model pricing. The Bank has determined these are Level 1 and Level 2 inputs.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

*Collateral dependent loans* – The fair value of collateral-dependent loans in Level 3 is generally based on the lower of the loan balance or the collateral’s appraised value. The analysis of collateral dependent loans includes external appraisals or in-house evaluations on loans secured by real property, management’s assessment of the current market, recent payment history and an evaluation of other sources or repayment.

*Other real estate owned* – Certain assets held within other real estate owned represent impaired real estate that has been adjusted to its estimated fair value as a result of their transfer from the loan portfolio at the time of foreclosure and based on management’s periodic impairment evaluation. The Bank has determined these are Level 3 inputs.

#### **Events subsequent to year-end**

Subsequent events are events or transactions that occur after the balance sheet date but before the consolidated financial statements are issued. The Company recognizes in the consolidated financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing the consolidated financial statements. The Company’s consolidated financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the balance sheet date and before consolidated financial statements are available to be issued.

The Company has evaluated subsequent events through March 27, 2026, which is the date the consolidated financial statements became available to be issued.

### Notes to Consolidated Financial Statements

The following table presents the gross unrealized losses and fair values of the Bank's investment securities, aggregated by investment category and length of time that individual securities have been in continuous unrealized loss positions (\$ in thousands):

	Less than 12 Months		12 Months or More		Totals	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
<b>December 31, 2025</b>						
Securities available-for-sale						
Mortgage-backed securities	\$ 1,807	\$ (3)	\$ 27,977	\$ (4,059)	\$ 29,784	\$ (4,062)
Obligations of states and political subdivisions	3,562	(44)	18,204	(2,135)	21,766	(2,179)
Obligations of U.S. government corporations and agencies	-	-	7,847	(555)	7,847	(555)
	<u>\$ 5,369</u>	<u>\$ (47)</u>	<u>\$ 54,028</u>	<u>\$ (6,749)</u>	<u>\$ 59,397</u>	<u>\$ (6,796)</u>
Securities held-to-maturity						
Corporate debt	\$ -	\$ -	\$ 9,575	\$ (425)	\$ 9,575	\$ (425)
Mortgage-backed securities	-	-	-	-	-	-
Obligations of states and political subdivisions	-	-	3,308	(340)	3,308	(340)
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 12,883</u>	<u>\$ (765)</u>	<u>\$ 12,883</u>	<u>\$ (765)</u>
<b>December 31, 2024</b>						
Securities available-for-sale						
Mortgage-backed securities	\$ 11,584	\$ (65)	\$ 27,642	\$ (5,322)	\$ 39,226	\$ (5,387)
Obligations of states and political subdivisions	5,208	(118)	16,562	(2,886)	21,770	(3,004)
Obligations of U.S. government corporations and agencies	-	-	6,489	(820)	6,489	(820)
	<u>\$ 16,792</u>	<u>\$ (183)</u>	<u>\$ 50,693</u>	<u>\$ (9,028)</u>	<u>\$ 67,485</u>	<u>\$ (9,211)</u>
Securities held-to-maturity						
Corporate debt	\$ -	\$ -	\$ 15,279	\$ (721)	\$ 15,279	\$ (721)
Mortgage-backed securities	1,995	(5)	775	(4)	2,770	(9)
Obligations of states and political subdivisions	495	(3)	3,127	(524)	3,622	(527)
	<u>\$ 2,490</u>	<u>\$ (8)</u>	<u>\$ 19,181</u>	<u>\$ (1,249)</u>	<u>\$ 21,671</u>	<u>\$ (1,257)</u>

Management evaluates available-for-sale debt securities in unrealized loss positions to determine whether the impairment is due to credit-related factors or noncredit-related factors. Consideration is given to the extent to which fair value is less than cost, the financial condition and near-term prospects of the issuer, and the intent and ability of the Bank to retain its investment in the security for a period of time sufficient to allow for any anticipated recovery in fair value.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

At December 31, 2025 and 2024, securities with fair values of approximately \$38.3 million and \$46.3 million, respectively, were pledged to secure available borrowings and public deposits, as required or permitted by law.

The Bank sold available-for-sale securities totaling \$2.3 million for a net loss of \$34,273 and sold held-to-maturity securities totaling \$0.1 million for a net gain of \$26 during the year ended December 31, 2025.

The amortized cost and estimated fair value of available-for-sale and held-to-maturity investment securities by contractual maturity at December 31, 2025, are shown below. Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties (\$ in thousands).

	Securities Available-for-Sale		Securities Held-to-Maturity	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due in one year or less	\$ 1,950	\$ 1,952	\$ 3,461	\$ 3,471
Due after one year through five years	6,379	6,098	6,406	6,265
Due after five years through ten years	16,028	15,133	10,497	9,891
Due after ten years	78,209	73,191	-	-
	\$ 102,566	\$ 96,374	\$ 20,364	\$ 19,627

For the purposes of the maturity table above, mortgage-backed securities, which are not due at a single maturity date, have been allocated over maturity groupings based on the weighted-average contractual maturities of underlying collateral. Mortgage-backed securities may mature earlier than their weighted-average contractual maturities because of principal prepayments.

At December 31, 2025 and 2024, the Bank held six and 24 securities in its investment portfolio, respectively, that had unrealized losses that have been in a loss position for less than twelve months. At December 31, 2025 and 2024, the Bank held 71 and 84 securities in its investment portfolio, respectively, that had unrealized losses and have been in a loss position for more than twelve months. Management does not have the intent to sell any of these securities and believes it is more likely than not that the Bank will not have to sell any such securities before a recovery of cost. The fair value is expected to recover as the securities approach their maturity date or repricing date or if market yields for such investments decline. Accordingly, as of December 31, 2025, management believes that the unrealized losses on investment securities are due to noncredit-related factors, and therefore no losses have been recognized in the Bank's Consolidated Statements of Income. For held to maturity securities, there have been no current period losses since the adoption of ASC 326. An estimate for expected credit losses on held to maturity securities is calculated as described in the summary for significant accounting policies.

### Notes to Consolidated Financial Statements

---

#### Note 3 – Loans, Net of Allowance for Credit Losses and Unearned Income

Loans consisted of the following at December 31 (\$ in thousands):

	2025	2024
Commercial	\$ 109,730	\$ 125,742
Commercial real estate	107,603	95,599
Consumer	53,676	50,236
Residential	100,885	89,714
Total loans	371,894	361,291
Allowance for credit losses	(7,880)	(7,295)
Deferred loan fees and costs, net	(1,459)	(1,349)
Loans, net	\$ 362,555	\$ 352,647

Loans pledged to secure borrowings were approximately \$102.9 million and \$85.2 million as of December 31, 2025 and 2024, respectively.

Mortgage loans originated by the Bank are normally sold on a nonrecourse basis to the Alaska Housing Finance Corporation, the Federal Home Loan Mortgage Corporation (Freddie Mac), the Federal National Mortgage Association (Fannie Mae) and other secondary markets. At December 31, 2025 and 2024, the Bank serviced mortgage loans of \$229.3 million and \$233.4 million, respectively, which had been sold to these investors. The estimated fair value of mortgage servicing rights is less than material to the financial statements.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

#### Note 4 – Allowance for Credit Losses

The following tables display the allocation of, and activity within, the allowance for credit losses to significant segments of the loan portfolio as of and for the years ended December 31, 2025 and 2024 (\$ in thousands):

	2025				
	Commercial	Commercial Real Estate	Consumer	Residential	Totals
<b>Allowance</b>					
Balance, beginning of the period	\$ 3,840	\$ 1,839	\$ 564	\$ 1,052	\$ 7,295

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

#### **Credit quality indicators**

The Bank's risk rating methodology assigns risk ratings ranging from one to nine, where a higher rating represents higher risk. The Bank differentiates its lending portfolios into homogeneous loans (generally consumer loans) and non-homogeneous loans (generally all non-consumer loans). The nine risk rating categories can be generally described by the following groupings for non-homogeneous loans:

*Low Risk* – These loans range from minimal credit risk to modest credit risk. These loans may be secured by cash, certificates of deposit, or investments. Borrowers are individuals and companies with well-established reputations and operating in reasonably stable industries. Cash flow from recurring sources is expected to continue to produce adequate debt service capacity.

*Average Risk* – These loans range from better than average to average credit risk. Primary repayment sources generate satisfactory debt service coverage under normal conditions. Cash flow from recurring sources is expected to continue to produce adequate debt service capacity. Borrowers have the ability to endure business cycles and usually have access to additional credit sources.

*Acceptable Risk* – Loans are graded as acceptable when there are some management weaknesses present or weakness of underlying fundamentals. This includes loans that have limited debt capacity, modest debt service coverage and below average asset quality, margins, or market share. These borrowers may be performing, but sensitive to market trends or business cycles.

*Watch* – A watch rating indicates that, according to current information, the borrower has the capacity to perform according to terms; however, elements of uncertainty exist (an uncharacteristic negative financial or other risk factor event). Margins of debt service coverage are narrow, and historical patterns of financial performance may be erratic, although overall trends are positive. Often the operating assets of the company and/or real estate will secure these loans. If secured, collateral value and adequate sources of repayment currently protect the loan. Material adverse trends have not developed at this time. Loans in this category can be new and/or thinly capitalized companies.

*Special Mention* – A Special Mention loan has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or the Bank's credit position at some future date. They contain unfavorable characteristics and are generally undesirable. Loans in this category are currently protected but are potentially weak and constitute an undue and unwarranted credit risk, but not to the point of a Substandard classification. A Special Mention loan has potential weaknesses, which if not checked or corrected, weaken the asset or inadequately protect the Bank's position at some future date. Unlike a Substandard credit, there is a reasonable expectation that these temporary issues will be corrected within the normal course of business, rather than a liquidation of assets, and in a reasonable period of time.

## **Denali Bancorporation, Inc. and Subsidiary**

### **Notes to Consolidated Financial Statements**

---

*Substandard* – A Substandard asset is inadequately protected by the equity position and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified have a well-defined weakness or weaknesses that jeopardize the orderly repayment of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected. Loss potential, while existing in the aggregate amount of substandard assets, does not necessarily exist in each individual asset classified as Substandard. The likely need to liquidate assets to correct the problem, rather than repayment from successful operations, is the key distinction between Special Mention and Substandard loans.

*Doubtful* – Loans classified as Doubtful have all the weaknesses inherent in one classified as Substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable. The possibility of loss is extremely high, but because of certain important and reasonably specific pending factors, which may work towards strengthening of the asset, classification as a Loss (and immediate charge-off) is deferred until more exact status may be determined.

*Loss* – These loans are considered uncollectible and of such little value that their continuance as active assets of the Bank is not warranted. This classification does not mean that the loan has no recovery or salvage value, but rather that it is not practical or desirable to defer writing it off as an asset. While Loss is an active grade in the risk rating system, any loan considered to be in this category is to be charged-off as soon as possible.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

The following tables present the Bank's portfolio of risk-rated loans by grade and by year of origination at December 31, 2025 and December 31, 2024. Management considers the guidance in ASC 310-20 when determining whether a modification, extension or renewal of a loan constitutes a current period origination. Generally, current period renewals of credit are re-underwritten at the point of renewal and considered current period originations for the purposes of the table below (\$ in thousands).

	2025	2024	2023	2022	2021	Prior	Total
<b>Commercial</b>							
Risk Rating							
Low Risk	\$ -	\$ 6,964	\$ 220	\$ 17,217	\$ 3	\$ 1	\$ 24,405

### Notes to Consolidated Financial Statements

---

#### Loan Modifications

The Bank may agree to modify the contractual terms of a loan to a borrower experiencing financial difficulties as part of ongoing loss mitigation strategies. These modifications may result in principal forgiveness, other-than-insignificant payment delay, term extension, interest rate modification, or a combination thereof.

The table below summarizes the amortized cost basis of loans as of December 31, 2025 and December 31, 2024, that have been modified, by class and by type of modification (\$ in thousands):

	Payment Delay	Term Extension	Total	% of Total Loan Class
<b>2025</b>				
Commercial	\$ -	\$ 2,895	\$ 2,895	2.64%
<b>2024</b>				
Commercial	\$ -	\$ 1,939	\$ 1,939	1.54%

The Bank closely monitors the performance of loans that are modified to borrowers experiencing financial difficulty to understand the effectiveness of its modification efforts. The loans that were modified in the last twelve months are current in their payments as of December 31, 2025.

The financial effect of commercial loans with term extensions is a one-year or two-year maturity extension.

#### Note 5 – Premises, Equipment, and Leasehold Improvements

The composition of premises, equipment, and leasehold improvements at December 31 are summarized as follows (\$ in thousands):

	2025	2024
Buildings and leasehold improvements	\$ 11,236	\$ 10,735
Equipment	7,558	7,339
Land	708	708
	19,502	18,782
Less: accumulated depreciation and amortization	(14,714)	(14,294)
Premises, equipment, and leasehold improvements, net of accumulated depreciation and amortization	<u>\$ 4,788</u>	<u>\$ 4,488</u>

Depreciation and amortization expense totaled \$419,508 and \$457,523 for 2025 and 2024, respectively.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

#### Note 6 – Time Deposits

Time certificates of deposit of \$250,000 and over totaled \$57.6 million and \$50.6 million at December 31, 2025 and 2024, respectively.

As of December 31, 2025, the scheduled maturities for all time deposits were as follows (\$ in thousands):

Years ending December 31, 2026	\$ 124,231
2027	8,888
2028	936
2029	277
2030	166
	<u>\$ 134,498</u>

#### Note 7 – Borrowings and Subordinated Debt

##### Federal Home Loan Bank advances

As a member of the FHLB, the Bank has entered into a “Cash Management Advance Promissory Note” Program with the FHLB. Borrowings under the credit arrangement are collateralized by the Bank’s FHLB stock as well as deposits, investment securities or other instruments, which may be pledged. At December 31, 2025 and 2024 available borrowing limits were approximately \$58.4 million and \$44.0 million, respectively. Borrowings outstanding as of December 31, 2025 totaled \$7.1 million at 3.98 percent maturing March 17, 2026. As of December 31, 2024, total borrowings were \$5.0 million, of which \$5.0 million was repaid during 2025.

##### Federal funds lines of credit and other borrowing arrangements

The Bank has obtained federal funds lines of credit totaling \$23.5 million with three correspondent banks. These lines of credit will expire upon consent of both parties. The Bank also has a borrowing line of \$3.1 million with the Federal Reserve Bank of San Francisco collateralized by investment securities. There were no balances outstanding on these federal funds lines of credit or the Federal Reserve borrowing line as of December 31, 2025 and 2024.

##### Subordinated debt

On August 22, 2022, the Company issued a \$7.0 million fixed-to-floating subordinated note that matures on August 21, 2032. The subordinated notes bear a fixed interest rate of six percent until August 22, 2027 and a floating interest rate equal to a benchmark rate, which is expected to be the three-month Secured Overnight Financing Rate plus 350 basis points thereafter until maturity. Debt issuance costs related to the transaction were immaterial. The Company may, at its option, redeem the notes, in whole or in part, without premium or penalty beginning on August 22, 2027.

On December 17, 2020, the Company issued a \$10.0 million fixed-to-floating subordinated note. The Company fully redeemed the note on December 17, 2025.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

#### Note 8 – Income Taxes

The provision for income taxes consists of the following for the years ended December 31 (\$ in thousands):

	2025	2024
Current tax expense		
Federal	\$ 2,093	\$ 1,923
State	1,025	817
	3,118	2,740
Deferred tax benefit		
Federal	(383)	(470)
State	(135)	(167)
	(518)	(637)
Provision for income taxes	\$ 2,600	\$ 2,103

The following table presents the reconciliation of the federal statutory rate to the actual effective rate for the years ended December 31:

	2025		2024	
Statutory Federal income tax rate	\$ 2,166	21.0%	\$ 1,812	21.0%
State tax, net of Federal benefit	766	7.4%	641	7.4%
Tax exempt interest and non-taxable income	(338)	-3.3%	(314)	-3.6%
Other, net	6	0.1%	(36)	-0.4%
	\$ 2,600	25.2%	\$ 2,103	24.4%

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

Deferred income taxes, recorded as other assets at December 31, 2025 and 2024, represent the tax effect of differences in timing between financial statement income and taxable income. The net deferred tax assets and liabilities, recorded within other assets, in the accompanying consolidated balance sheets at December 31, include the following components (\$ in thousands):

	2025	2024
Deferred tax assets		
Unrealized losses on securities available-for-sale	\$ 1,760	\$ 2,536
Excess of provision for credit losses over deduction	2,119	1,918
Deferred compensation	994	781
Lease liability	163	203
Accrued leave	148	118
Nonaccrual interest income	244	101
Other reserves	106	69
Total deferred tax assets	5,534	5,726
Deferred tax liabilities		
Accelerated depreciation	(172)	(63)
Right-of-use asset	(163)	(203)
Prepays	(94)	(95)
Deferred loan costs	(88)	(89)
Total deferred tax liabilities	(517)	(450)
Net deferred tax assets	\$ 5,017	\$ 5,276

Management believes, based upon the Company's historical performance, the deferred tax assets will be realized in the normal course of operations and, accordingly, management has not reduced the deferred tax assets by a valuation allowance.

During the years ended December 31, 2025 and 2024, the Company recognized no interest and penalties related to taxes. As of December 31, 2025, and 2024, the Company had no unrecognized tax benefits. Management does not anticipate that the amount of unrecognized tax benefits will significantly change in the next twelve months.

## **Denali Bancorporation, Inc. and Subsidiary**

### **Notes to Consolidated Financial Statements**

---

#### **Note 9 – Commitments and Contingencies**

##### **Legal contingencies**

The Company may become a defendant in certain claims and legal actions arising in the ordinary course of business. There can be no assurance that the ultimate outcome will not differ materially from the Company's assessment of each matter. There can also be no assurance that all matters that may be brought against the Company are known to management or the Board of Directors at any point in time. In the opinion of management, after consultation with counsel regarding outstanding legal matters that could possibly result in a financial loss, there are no matters presently known to the Company that are expected to have a material adverse effect on the Company's financial condition or results of operations.

##### **Off-balance sheet credit risk**

In the normal course of business to meet the financing needs of its customers, the Bank is a party to financial instruments with off-balance sheet risk. These financial instruments include commitments to extend credit and the issuance of letters of credit. These instruments involve, to varying degrees, elements of credit and interest-rate risk in excess of the amounts recognized in the balance sheets. The contract amounts of those instruments reflect the extent of involvement the Bank has in particular classes of financial instruments.

The Bank's exposure to credit loss, in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and letters of credit written, is represented by the contractual amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Commitments to extend credit are agreements to lend to customers as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based on management's credit evaluation of the counterparty. Collateral held varies but may include accounts receivable, inventory, property and equipment, and income-producing properties.

Letters of credit written are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements, including commercial paper, bond financing, and similar transactions. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank holds cash, marketable securities, or real estate as collateral supporting those commitments for which collateral is deemed necessary.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

At December 31, 2025, the Bank had outstanding commitments for letters of credit, unused lines of credit and origination of loans that are not reflected in the accompanying consolidated financial statements as follows (\$ in thousands):

Commercial lines of credit	\$ 21,029
Commitments to extend credit	16,071
Home equity lines	10,269
Other unused commitments	1,573
Total commitments	\$ 48,942

The allowance for credit losses on outstanding commitments is reported as a liability and at December 31, 2025 and December 31, 2024, is \$103,473 and \$52,727, respectively.

#### Note 10 – Leases

The Bank, as lessee, leases three branch facilities under operating lease agreements that will expire between 2026 and 2030. In addition, the Bank, as lessor, leases office space to two tenants, also under operating lease agreements.

Right-of-use assets and lease liabilities by lease type, and the associated balance sheet classifications are as follows as of December 31 (\$ in thousands):

	Balance Sheet Classification	2025	2024
Right-of-use asset:			
Operating leases	Other assets	\$ 572	\$ 715
Lease liabilities:			
Operating leases	Accrued interest payable and other liabilities	\$ 572	\$ 715

The components of total lease expense recorded in net occupancy expenses were as follows for the year ended December 31:

	2025	2024
Operating lease expense:		
Operating leases (1)	\$ 207	\$ 202
Less: operating lease income	(158)	(158)
Total operating lease expense, net	\$ 49	\$ 44

(1) Short-term lease costs were less than material to the financial statements

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

Future undiscounted lease liability maturities and lease receipts associated with lease agreements are as follows for the years ended December 31 (\$ in thousands):

	Operating Leases	
	As Lessee	As Lessor
2026	\$ 203	\$ 158
2027	168	148
2028	153	137
2029	115	137
		91
Total undiscounted lease payments and receipts	639	\$ 671
Less: imputed interest	(67)	
Net lease liabilities	\$ 572	

#### Supplemental Lease information

For the year ended December 31:

	2025	2024
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	\$ 188	\$ 179
Operating lease weighted average remaining lease term (years)	3.5	4.5
Operating lease weighted average discount rate	4.51%	4.61%

New right-of-use assets totaling \$45,000 were obtained in exchange for new operating lease liabilities during the year ended December 31, 2025.

Lease agreements do not contain any residual value guarantees or restrictive covenants.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

#### Note 11 – Concentrations of Credit Risk

The majority of the Bank's loans, commitments, and commercial and standby letters of credit have been granted to customers in the Bank's market area. The majority of such customers are also depositors of the Bank. Concentrations of credit by type of loan are set forth in Note 3. The Bank's loan policy does not allow the extension of credit to any single borrower or group of related borrowers in excess of \$1.0 million without approval from the Board of Directors' Loan Committee.

#### Note 12 – Transactions with Related Parties

Certain directors, executive officers, and principal stockholders are customers of and have had banking transactions with the Bank in the ordinary course of business, and the Bank expects to have such transactions in the future. All loans and commitments to lend included in such transactions are made in compliance with applicable laws on substantially the same terms (including interest rates and collateral) as those prevailing at the time for comparable transactions with other persons and, in the opinion of the management of the Bank, do not involve more than the normal risk of collection or present any other unfavorable features. The amount of loans and loan commitments outstanding to directors, executive officers, principal stockholders, and companies that they are associated with at December 31 was as follows (\$ in thousands):

	<u>2025</u>	<u>2024</u>
Balance, beginning of year	\$ 669	\$ 763
Principal advanced	680	65
Principal repaid	<u>(141)</u>	<u>(159)</u>
Balance, end of year	<u>\$ 1,208</u>	<u>\$ 669</u>

As of December 31, 2025 and 2024, funds on deposit with the Bank from directors, principal stockholders, their related interests, and principal officers totaled \$21.4 million and \$18.9 million, respectively.

The Company's directors and Bank directors were issued cash and stock as compensation for attending meetings in 2025. Cash compensation in 2025 was \$164,850 for attending Company meetings and \$233,975 for attending Bank meetings, and \$140,950 in 2024 for Bank meetings.

During the year ended December 31, 2025 the Company issued directors 10,540 shares at \$16.90 per share for meetings attended in 2024, and 3,995 shares at \$16.32 per share as compensation for meetings attended in 2025. During the year ended December 31, 2024 the Company issued directors 9,435 shares at \$14.41 per share as compensation for attending board meetings. The stock is valued at the average sales price for all stock transactions that occurred during the twelve-month period preceding the issuance.

## **Denali Bancorporation, Inc. and Subsidiary**

### **Notes to Consolidated Financial Statements**

---

#### **Note 13 – Employee Benefit Plans**

##### **401(k) pension and profit sharing plans**

The Bank has a 401(k) defined contribution profit sharing plan that covers all eligible employees. Participants may elect to contribute to the 401(k) plan up to the limits set by the Internal Revenue Code. To encourage employee participation in saving for retirement, the Bank contributes a three percent non-elective safe harbor election, and also elected a two percent Bank match for all eligible employees contributing to the 401(k) plan. The Bank contributed \$309,753 and \$324,831 to this plan in 2025 and 2024, respectively. The Bank may also make annual profit sharing contributions, as determined by the Board of Directors, but may not exceed the percentage of compensation allowable for income tax purposes. Bank profit sharing contributions to the 401(k) plan were \$604,000 and \$520,000 for the years ended December 31, 2025 and 2024.

##### **Supplemental executive retirement and deferred compensation plans**

A supplemental executive retirement plan was established in 2016 to benefit certain executives and senior management. Participants are vested 100 percent after five years of service. Upon reaching retirement age, as determined by the plan, participants receive a monthly benefit upon retirement age paid out over a period of fifteen years. As of December 31, 2025, and 2024, the liability associated with this plan was \$3.1 million and \$2.6 million, respectively, and the Bank recorded expense in the statements of income for the years ended December 31, 2025 and 2024, of \$596,490 and \$300,704, respectively. The Bank holds bank-owned life insurance on some of the participants to fund the supplemental retirement obligations under this plan.

A deferred compensation plan was established in 2008 available to designated senior level employee classes. The total recorded plan balance was \$351,781 and \$156,843 for the years ended December 31, 2025 and 2024, respectively. Balances are held in a trust account for the benefit of the participants, with an offsetting liability account maintained to recognize the Bank's obligation under the plan.

#### Note 14 – Fair Values of Assets and Liabilities

The following table presents information about the Bank's assets measured at fair value on a recurring and nonrecurring basis, and indicates the fair value hierarchy of the valuation techniques utilized by the Bank to determine such fair value (\$ in thousands):

	Fair Value Measurements			
	Fair Value	(Level 1)	(Level 2)	(Level 3)
December 31, 2025				
Recurring items				
Mortgage-backed securities	\$ 54,603		\$ 54,603	
Obligations of states and political subdivisions	33,924		33,924	
Obligations of U.S. government corporations and agencies	7,847		7,847	
	<u>\$ 96,374</u>	<u>\$ -</u>	<u>\$ 96,374</u>	<u>\$ -</u>
Nonrecurring items				
Individually evaluated loans	<u>\$ 13,696</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 13,696</u>
December 31, 2024				
Recurring items				
Mortgage-backed securities	\$ 55,180	\$ -	\$ 55,180	-
Obligations of states and political subdivisions	26,823	-	26,823	-
Obligations of U.S. government corporations and agencies	6,489	-	6,489	-
	<u>\$ 88,492</u>	<u>\$ -</u>	<u>\$ 88,492</u>	<u>\$ -</u>
Nonrecurring items				
Individually evaluated loans	<u>\$ 13,473</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 13,473</u>

Assets and liabilities are reported in the table by recurring or nonrecurring measurement status. Recurring assets are initially measured at fair value and are required to be remeasured at fair value in the consolidated financial statements at each reporting date. Assets measured on a nonrecurring basis are assets that, due to an event or circumstance, were required to be remeasured at fair value after initial recognition in the consolidated financial statements at some time during the reporting period.

In 2025, the fair value of collateral-dependent loans in Level 3 is generally based on the lower of the loan balance or the collateral's appraised value. Real estate appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Non-real estate collateral may be valued using an appraisal, net book value based on the borrower's financial statements or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation and management's expertise and knowledge of the customer and customer's business (Level 3). If applicable, the fair value may reflect an allowance for credit losses.

### Notes to Consolidated Financial Statements

---

The following table provides a description of the valuation technique, observable input and qualitative information about the unobservable inputs for the Bank's assets classified as Level 3 and measured at fair value on a nonrecurring basis:

Financial Instruments	Valuation Technique	Unobservable Inputs	Discount Range
Individually evaluated loans	Market comparable	Adjustments to appraised values	10% – 15%
	Discounted cash flow	Discount rate	3% – 7%

The Bank did not change the methodology used to determine fair value for any financial instruments during the years ended December 31, 2025 and 2024. Nor did the Bank have any transfers to or from Level 1, Level 2 or Level 3 during these years.

The following tables disclose the estimated fair value and the related carrying value of the Bank's financial assets and liabilities (\$ in thousands):

	Carrying Value	Fair Value at December 31, 2025			
		Total	Level 1	Level 2	Level 3
<b>Financial assets</b>					
Cash and due from banks	\$ 3,624	\$ 3,624	\$ 3,624	\$ -	\$ -

#### Note 15 – Regulatory Capital

The Company and Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory – and possibly additional discretionary – actions by regulators that, if undertaken, could have a direct material effect on the Company and Bank’s financial statements. Under capital adequacy guidelines, the Bank must meet specific capital adequacy guidelines that involve quantitative measures of assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank’s capital classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the following table) of Tier 1 capital (as defined in the regulations) to total average assets (as defined), and minimum ratios of Tier 1, common equity Tier 1 and total capital (as defined) to risk-weighted assets (as defined). Management believes, as of December 31, 2025 and 2024, that the Company and Bank meet all capital requirements to which it is subject.

As of the most recent notifications from its regulatory agencies, the Bank was categorized as “well capitalized” under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum total risk-based capital, Tier 1 risk-based capital, common equity Tier 1 and Tier 1 leverage capital ratios as set forth in the following table. There are no conditions or events since that notification that management believes may have changed the Bank’s category.

## Denali Bancorporation, Inc. and Subsidiary

### Notes to Consolidated Financial Statements

---

The following table presents the capital ratios for the Bank (\$ in thousands):

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
December 31, 2025						
Total risk-based capital (to risk-weighted assets)	\$61,341	15.3%	\$32,061	8.0%	\$ 40,077	10.0%
Tier 1 capital (to risk-weighted assets)	\$56,293	14.0%	\$24,046	6.0%	\$ 32,061	8.0%
Common equity tier 1 (to risk-weighted assets)	\$56,293	14.0%	\$18,034	4.5%	\$ 26,050	6.5%
Tier 1 capital (to average total assets)	\$56,293	10.7%	\$21,113	4.0%	\$ 26,391	5.0%
December 31, 2024						
Total risk-based capital (to risk-weighted assets)	\$66,042	17.1%	\$30,904	8.0%	\$ 38,630	10.0%
Tier 1 capital (to risk-weighted assets)	\$61,180	15.8%	\$23,178	6.0%	\$ 30,904	8.0%
Common equity tier 1 (to risk-weighted assets)	\$61,180	15.8%	\$17,383	4.5%	\$ 25,109	6.5%
Tier 1 capital (to average total assets)	\$61,180	12.0%	\$20,342	4.0%	\$ 25,428	5.0%

The Bank is required to maintain a common equity Tier 1 capital conservation buffer of greater than 2.5 percent of risk-weighted assets (above the minimum for capital adequacy purposes). An institution that does not meet the conservation buffer requirement will be subject to restrictions on certain activities including payment of dividends, stock repurchases, and discretionary bonuses to executive officers.

#### **Dividends**

Regulations of the FDIC do not permit the Bank to pay dividends on its common stock if stockholders' equity would thereby be reduced below the Bank's regulatory capital requirements.

#### Note 16 – Revenue from Contracts with Customers

All of the Bank's revenue from contracts with customers in the scope of ASC 606 is recognized within non-interest income. The following table presents the Bank's sources of non-interest income for the twelve months ended December 31 (\$ in thousands):

	2025	2024
Non-interest income		
Service charges and other fees		
Interchange income, net	\$ 861	\$ 870
Loan servicing income (1)	717	716
Service charges on deposits	530	506
Other income (1)	334	302
Total service charges and fees	2,442	2,394
Net gain on sale of loans (1)	447	359
Increase in value of bank-owned life insurance (1)	270	258
Net gains (losses) on trading securities (1)	-	(50)
Net losses on sale of investment securities (1)	(34)	-
Total non-interest income	\$ 3,125	\$ 2,961

(1) Not within the scope of ASC 606
